*“Until you make the unconscious conscious, it will direct your life and you will call it fate.”*

## Understanding Dysregulation

This two-hour seminar explains the nervous system states of Fight, Flight & Freeze as well as the survival strategy of submitting when we feel overpowered. We'll explore how our minds, heart and most importantly our bodies, signal when we sense threat or danger. Learning to “read our bodies” is the first step in becoming more healed and regulated in our work, responsibilities, and relationships.
